

NEW 700i Jaw Crusher

NEW Tesab 700i Tracked Jaw Crusher:

The latest model in our expanding range of Tracked Jaw Crushers is the 700i. Based on the proven 10570, the 700i is a more streamlined and powerful machine with the ability to produce even higher tonnages!

Large Hopper + New Feeder System = Higher Throughput

New Hydraulic Locking Cribs = Decreased Setup Time

Proven 10570 Crusher Unit with 1100mm x 700mm Jaws

1200mm Discharge Belt Streamlines Material Flow

2 Deck Independent Prescreen = Increased Production & Reduced Wear Costs

Direct Drive System + Large Flywheel = Lower Running Costs

Crushing the Competition...

- Over 350 TPH Production*
- Fuel Consumption as low as 22 Litres per Hour* = **Low Cost Per Tonne!**
- 2 Deck Independent Pre Screen

* Depending on application & setup
